Accelerate Copilot for Microsoft 365
Defining the steps to get you started on your journey

Copilot for Microsoft 365 seamlessly integrates with your daily-use applications, allowing you to concentrate on crucial tasks and less on mundane activities. Collaborating with you, it empowers creativity, enhances productivity, and elevates your skill set.

AMTRA's Accelerate Copilot for Microsoft 365 is a 3-step process that combines our Copilot for M365 workshop, Adoption Accelerator workshop and Copilot Implementation Plan and Pilot. Our team of experts work closely with the Microsoft Copilot team, and when possible connect funding opportunities to save customers money. This exclusive opportunity is designed to assess your readiness, identify blockers, assign licenses, plan for remediation, deliver hands-on learning, validate use cases and enhance adoption.
