WINDOWS 365
A New Solution for Today's Hybrid Work World

Windows 365 combines the power and security of the cloud with the versatility and simplicity of the PC. From contractors and interns to software developers and industrial designers, Windows 365 enables a variety of new scenarios for the new world of work.

- ✓ Your content wherever you go.
- ✓ Compute options for different users.
- ✓ Consistent settings across devices.

- ✓ The apps you need, when you need them.
- ✓ Scalable storage based on your needs.
- ✓ Integrated, unified security and identity management.

FEATURES

Personalized Cloud PCs| Stream your apps, data, content, and settings from the Microsoft cloud to any device.

Simple, Powerful & Secure | Easily set-up and scale Cloud PCs to fit your needs and securely support your hybrid workforce.

Streamline IT | Get the benefits of desktop virtualization without the typical costs, or required IT expertise.

Stream to any device | Pick up where you left off, on any device, and experience new opportunities for work and collaboration.

Access all your resources | Use popular business apps, custom and line-of-business apps, and access all of your data and content.

Scale for your needs | Choose from a variety of performance options to suit businesses of any size.

BENEFITS

✓ **Increase Productivity |** Allow employees to work when and where they choose with Windows in the cloud streamed to any device.

✓ **Minimize Risk** | Reduce security risks by storing and securing information in the cloud, not on devices.

✓ **Manage Costs** | Stay within budget, without compromising your business with fixed per-user pricing.
